

## Meeting Agenda

Date: 23/5 2013

Facilitator: Markus Norén

Participants: Roy Nard, Hampus Forsvall, Johanna Hartman, Markus Norén.

1. Objectives (5 min) Resolve any issues preventing the team to continue (this should be possible to verify at next meeting, short clear description, use issues from project site).

2. Reports (15 min) From previous meetings, (un)solved issues, etc. , see also 4

QuizWalkActivity is still not working. Project got some gui-fixes this week. EditQuizWalkActivity is working well.

3. Discussion items (35 min)

We need to focus on documentation aswell as getting the last parts working the last few days. Code need to be clean and well-structured at sunday.

4. Outcomes and assignments (5 min)

Hampus will keep working with location-services.

Markus will start refactoring and keep working with gui.

Johanna will implement settings and a reward-screen.

Roy will refactor aswell, and look over package-structure.

5. Wrap up
