

Meeting Agenda

Date: 2013-04-23

Facilitator: Nard

Participants: Roy Nard, Hampus Forsvall, Johanna Hartman, Markus Norén.

1. Objectives (5 min) Resolve any issues preventing the team to continue (this should be possible to verify at next meeting, short clear description, use issues from project site).

- Define Mock-up for GUI

2. Reports (15 min) From previous meetings, (un)solved issues, etc. , see also 4

- Generic model almost completed
- Integrated Google Maps API v2 Android. Tested on most basic level.

3. Discussion items (35 min)

(a) How do we do...?

Google API authentication: Proper key needed for all dev-machines in order to access GMaps API. Solution: Everyone will use the same .keystore file.

(b) What to do...?

Attempt at defining a mock-up GUI.

4. Outcomes and assignments (5 min)

Everyone will read more on GMaps API and Android GUI-framework.

5. Wrap up

Next meeting: thursday.
